Harshitha Jonnalagadda

B.Tech Student · Information Technology | Expected Graduation: 2028

Email: harshithajonnalagadda2322@gmail.com | LinkedIn: linkedin.com/in/jonnalagadda123 | GitHub: github.com/harshithajonnalagadda2322-sudo

PROFILE

B.Tech Information Technology student at Vasireddy Venkatadri Institute of Technology. Interested in technology, creativity, marketing, and entrepreneurship. Long-term goal is to build a business combining technology, creativity, and marketing.

EDUCATION

B.Tech — Information Technology
Vasireddy Venkatadri Institute of Technology
Expected graduation: 2028

TECHNICAL SKILLS

C · Java basics · Python · Data Structures and Algorithms (DSA) · HTML · MySQL · Flutter basics

PROJECTS

Li-Fi Based Visible Light Communication System — Academic project presentation describing an Arduino-based visible-light communication prototype using an LED, LDR, and 16×2 LCD.

Smart Water Leakage Detection — Project concept for pipe-vibration sensing with a piezoelectric sensor, Arduino-based threshold classification, and LED/buzzer alerts; neural-network/VLSI work is proposed future scope.

Smart Hospital Hygiene Monitoring System — Project concept proposing IoT sensors, RFID/BLE, AI analytics, alerts, and a centralized hygiene monitoring dashboard.

Flutter Calculator — Basic calculator project built while learning Flutter.

CERTIFICATIONS

Programming using Java · Introduction to Python

INTERESTS & GOAL

Video editing using InShot · Drawing · Marketing · Entrepreneurship. Interested in gaining practical experience and eventually starting a business after completing B.Tech.
